AirWave

User Manual

Introduction

Thank you for choosing the AirWave True Wireless Stereo Bluetooth headset. You will enjoy stylish design, powerful functions and wide compatibility. The AirWave is waterproof to the IP67 standard. We hope you enjoy trouble free performance indoors, outdoors and in the car for many years to come.

The AirWave includes "Intelligent Headset" and "Intelligent Powerbank" features, and has been optimized for use with mobile phones. Despite its compact size, it can be used as a Bluetooth headset, as well as an emergency powerbank. Portable design, you don't need wear the headset all the time, and you can keep full battery power.

The AirWave Bluetooth wireless technology allows you easy and fast pairing with smart phones, tablets and other Bluetooth enabled music devices. The AirWave also has true wireless stereo pairing via the Bluetooth 4.1 standard. Pairing 2 cordless earbuds wirelessly is now possible, making it the smallest stereo Bluetooth headset on the available today. Bluetooth 4.2 with advanced audio decode technology enables wireless connections to your smartphone and other Bluetooth devices and gives this ultra-small stereo wireless headphones unparalleled sound quality.

Features:

1. Sleek and Innovative Compact-Style Portable Charging System.
2. 2 in 1 Bluetooth headset and Bluetooth charger, great for driving/work/indoors/outside sports.
3. CVC noise Isolation technology reduces outside noises, enabling a clearer microphone sound.
4. Built in 850mAh mobile power
5. CSR chip, low power consumption, multi compatibility
6. Vivid LED indicators that display different operating modes
7. Support call hands-free function
8. Optimized circuit design with over-current protection and short circuit protection reducing risk of damage to the AirWave
